Homeowner Spotlight

On June 14th, Sojourn Church had the opportunity to partner with Rebuilding Together, We had students in high school helping a neighbor in the Dilworth area with some yard work and also foundation issues at her home. This was a full morning of serving that gave such support and hope for this resident. Our Church took great joy in joining Rebuilding Together in meeting her physical needs around her house that day. In remembering that day.....it was a very physical morning of yard work, shoveling, painting and shoveling some more. All of our volunteering was worth it because the resident was filled with hope and joy that there were people that cared and loved her....even a few sweaty high school students. We chose to partner with **Rebuilding Together** because they are advocates for people who cannot advocate for themselves in the areas of home maintenance and upkeep. That Tuesday we were able to bridge the gap between having an unkept yard and house damage, to allowing this resident to find comfort, security and safety in her home. I would say that I and the crew working that day were privileged to meet her and get to know her story. *Thank you Rebuilding Together for the opportunity and thank you to everyone who supports this outstanding Fargo organization!*

-Brent McNeal

RTFMA News

This Spring has been a great start to a powerful project season. So far this season Rebuilding Together Fargo-Moorhead has completed 8 home projects. Four of which were roof replacements. Volunteers have been hard at work with our "Total Home Makeover" in Hillsboro, revitalizing an unsellable house to create a new home for a low income family. Several projects have been adopted by area house sponsors and will be completed this year, while many more have volunteers and funding in the works. The 2016 project season is on its way to an amazing start! **Our Website has a great new look check it out at rebuildingtogetherfma.org**

A Big Thank You to!

- The Sojourn church and their amazing youth NDSU Architect students, Horizon Middle Schools 8th graders, and Katelyn Wehlage for there wonderful work on projects this spring.
